

10.6.2 IT INCIDENT SEVERITY LEVELS STANDARD

Owner	Anthony Hahn, Manager IT Service Desk	Effective Date	7/9/2021
Type	Standard	Supersedes	9/11/2014

APPLICATION

This standard applies to the ITS Incident Tracking process

STANDARD

- All ITS incidents will be assigned one of four severity levels. Severity levels should only be changed after determining an incident was assessed incorrectly.
- A major incident can only be created from a Severity 1 or 2 incident.
- Major incidents do not get downgraded once mitigated. They are recorded as mitigated and closed when resolved.
- Executive SLA includes Vice Presidents and above, executive admins and the Board of Directors

Urgency	Impact			
		Workgroup and Critical system or Tier 1 location	Workgroup and Secondary System or Non Tier 1 Site/Building	Less than 10% of a workgroup or individual workstation
	Critical – Prevents the immediate delivery of business services with no acceptable workaround (ex. customer travel delayed, safety impact, loss of revenue, work stoppage)	Severity 1	Severity 2	Severity 3
	High – Customer impacting or impacts ability to perform job duties with no acceptable workaround	Severity 2	Severity 2	Severity 3
	Medium - Degraded performance, impacts ability to perform job duties but has acceptable workaround or has	Severity 2	Severity 3	Severity 4

	potential for a major incident if left unresolved			
	Low – Minimal to no operational impact or immediate potential for impact	Severity 4	Severity 4	Severity 4

Incident Service Level Agreement's

	SEVERITY 1	SEVERITY 2	SEVERITY 3	SEVERITY 4	EXECUTIVE
Response Level	Critical	High	Medium	Low	High
Mitigation Timeframe	1 hour	4 hours	8 business hours	3 business days	4 hours
Expected Action	Within 20 minutes ITS incident response team is initiated. ITS Support staff works continuously until the incident is mitigated	ITS on-call is contacted within 20 minutes and on-call works continuously until the incident is resolved or an acceptable workaround has been established	ITS support staff works during business hours until the incident is resolved or an acceptable work-around has been established	ITS support staff works during business hours until the incident is resolved or an acceptable work-around has been established	ITS Executive Support is contacted and works continuously until the incident is resolved.
