

Change Request #126814 Summary

Deployment Overview for IT Teams and Change Managers

1. Deployment Details

Service / Component	Account page
Change Summary	Add a contact info section in the account page. The contact info section takes the guest to a blank “hello world” screen. This section is hidden behind a feature flag called <code>is_account_settings_enabled</code> .
Version	Android 8.5.0 package
Change Request Link	Link to Cherwell CR#126814

2. Impacted Systems

Primary Systems	N/A for UI changes
Downstream/Upstream Dependencies	N/A for UI changes
Guest Flows / Touchpoints	Account page
Risk Level	Low

3. Rollback Strategy

Outline the steps for reverting the deployment if needed, including responsible parties and estimated rollback time.

Rollback Method	The contact info section is hidden behind a feature flag and will off in prod. In the event the feature flag is not hiding the section, we would need to rollback. Mobile app rollback is impossible once downloaded. Our strategy is to minimize impact by stopping a phased release approach (over 7 days: 1%, 2%, 5%, 10%, 20%, 50%, 100%) to prevent guests from automatically downloading a faulty build. Validate when app is released at 1% in the phased rollout - either a fix-forward as a hotfix, or re-release the last version in
-----------------	---

	production (iOS – 8.2.0, Android – 8.2.0) as a patch version 8.2.1.
Rollback Owner	Mobile Platform Release Team
Rollback Trigger	The contact info section is visible instead of being hidden
Estimated Rollback Time	For pausing a phased rollout: 15 min For deploying fixes: Dependent on Apple and Google review time – could be within hours or up to 1-2 days.
Rollback Steps	For pausing a rollout: 1. Log in to Apple AppStore Connect / Google Play Console 2. Pause phased roll-out For deploying fixes: 1. Revert changes or fix forward (depending on the situation) on the main branch 2. Validate fixes 3. Cherry pick changes over to release branch release/8.2.1 (based on 8.1.0) 4. Get release package approval 5. Merge to release branch release/8.2.1 6. Submit app to Google and/or Apple for approval 7. Deploy app after principal and change request approval

4. Alerting and Monitoring

Dashboards	Firestore Android: https://console.firebase.google.com/u/0/project/api-project-711061333813/analytics/app/android:com.alaskaairlines.android/latestrelease/latestrelease~2Fhub%3Ffpn%3D711061333813
On-Call Channel	On-Call Support Account Dracula
Success Criteria	The contact info section is not visible in the account page.
