

Change Request Summary for CR#127579

Deployment Overview for IT Teams and Change Managers

1. Deployment Details

Service / Component	Enrollment and superuser audit trail
Change Summary	• Add a new endpoint for in-flight enrollments so guests can enroll in Atmos Rewards with in-flight Wi-Fi • Remove code that calls the legacy header/footer endpoints • Fix display issues in the Profile and Settings page • Update the terms and conditions link in the MFA UI
Version	1
Change Request Link	Link to Cherwell CR#127579
ADO Items	• User Story 1544130: [RTD 4/29] Enrollment service Fix failing service tests • User Story 1533566: [RTD 4/16] Enrollment Service Trigger new email template for inflight enrollments • User Story 1521026: [RTD 4/7] Enable guests to sign up for AR accounts using the onboard Wi-Fi portal • Bug 1533760: [RTD 4/8] MFA Terms and Conditions link is incorrect • User Story 1432071: Web Preference Center showing 2 memberships instead of one for contiguous membership type - Release Planned 5/19/2026 - Dependency on Account Team • Bug 1528576: [RTD 5/12] Remove incorrect “optional” label from required Gender field in Travel Companions

2. Impacted Systems

Primary Systems	• Enrollment Service • Enrollment Service APIM • Web Preference Center • Profile UI BFF • Profile UI BFF APIM
Downstream/Upstream Dependencies	None

Guest Flows / Touchpoints	In-flight enrollments, Profile and Settings page
Risk Level	Low

3. Rollback Strategy

Outline the steps for reverting the deployment if needed, including responsible parties and estimated rollback time.

Rollback Method	Run the rollback stage of the WPC pipeline and deploy the previous builds of Enrollment Service, Enrollment Service APIM, Profile UI BFF, and Profile UI BFF APIM to prod.
Rollback Owner	John Louie
Rollback Trigger	The Atmos Rewards enrollment page or Profile and Settings page is broken
Estimated Rollback Time	20 minutes
Rollback Steps	• Deploy the previous Enrollment Service build to prod: https://itsals.visualstudio.com/E_Retain_Account/_build/results?buildId=3371159&view=results • Deploy the previous Enrollment Service APIM build to prod: https://dev.azure.com/itsals/E_Retain_Account/_build/results?buildId=3069047&view=results • Deploy the previous Profile UI BFF build to prod: https://dev.azure.com/itsals/E_Retain_Account/_build/results?buildId=3571574&view=results • Deploy the previous Profile UI BFF APIM build to prod: https://dev.azure.com/itsals/E_Retain_Account/_build/results?buildId=3571572&view=results • Run the rollback stage of this WPC pipeline: https://dev.azure.com/itsals/E_Retain_Account/_build/results?buildId=3611057&view=results

4. Alerting and Monitoring

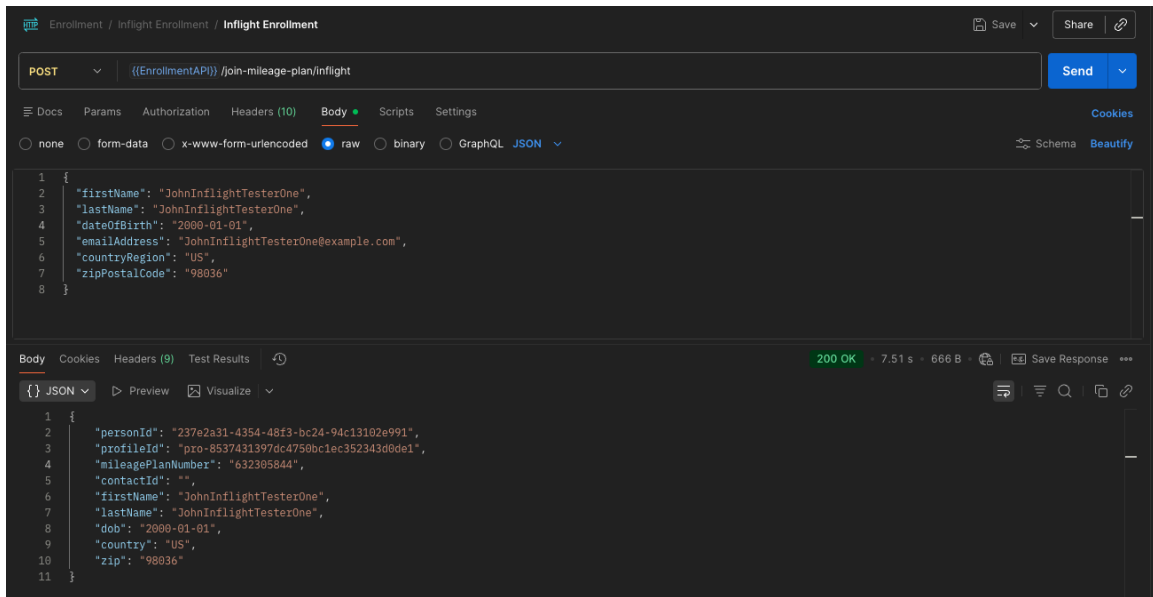

Dashboards	Tealium Dashboard
Alerts	
On-Call Channel	On-Call Alerts Account Dracula Microsoft Teams
Success Criteria	• The in-flight enrollment endpoint is exposed and can receive requests • The header/footer still shows up in Web Preference Center pages

5. Documentation Links

6. Proof of Testing

In-flight enrollments:

This screenshot shows a successful Postman request being sent to the in-flight enrollment endpoint. The UI will be handled by a different team.

Remove old code calling the legacy header/footer endpoints:

Site Cookies

The screenshots above show that the header/footer still work in the Web Preference Center pages after the calls to the legacy endpoint were removed.

Don't show duplicate membership types if the same type is in active and future states:

Lounge

View your Lounge membership and benefits information.

^ Lounge membership

You can renew your membership between January 22, 2028 - March 22, 2028

Current membership

Alaska Lounge membership

Includes

Access to all Alaska Lounges

Expires

March 22, 2028

[Search for receipt](#)

[View membership benefits](#)

This screenshot shows a member with Lounge as the current membership type and Lounge as the future membership type. Instead of showing Lounge twice, they are consolidated into one.

Remove the optional label from the gender field in the travel companion section:

Travel preferences

Let us know how to make your experience as comfortable and enjoyable as possible by selecting your travel preferences.

Seats

Companions

Add travel companion ×

Name

Personal info

Please enter a complete date in the format MM/DD/YYYY

Select gender that appears on your government-issued ID you travel with.

Phone number

Please include area code, no spaces, eg. 1231231234.

This screenshot shows that the gender field no longer has the “(optional)” label on it.

Updated terms and conditions link:

Login

▼ User ID and password

▲ Multifactor Authentication (MFA)

Keep your Atmos Rewards account secure with Multifactor Authentication (MFA). As an Atmos Rewards member, you'll receive text messages with login codes when you enable this feature.

ⓘ MFA is only available for US phone numbers.

Set up MFA

If you are experiencing issues with the messaging program you can reply with the keyword HELP for more assistance or visit our [Help Center](#). ⓘ

Messaging frequency varies. You may opt out at any time. Standard messaging rates may apply. Carriers are not liable for delayed or undelivered messages.

This screenshot shows that the correct link is in the Terms and conditions hyperlink when you hover over it.

SMS for MFA terms and conditions

By enrolling in, activating or using SMS text, you agree to these terms and conditions.

MFA isn't available to all members yet because it's rolling out in phases. If you don't see the option during login, it just means your account hasn't been activated for MFA yet. When it is, you'll be prompted automatically during the login process to set it up.

What is SMS for MFA?

If you opt into Alaska Airlines' text messaging multi-factor authentication program (MFA), Alaska Airlines will send you text messages at your request from short code 34012. **This is not a promotional SMS subscription.**

How do I activate SMS for MFA?

You may opt-in to receiving a text message code for authentication either 1) during login or 2) on your Profile and Settings page. You will be asked to enter the number where you would like to receive codes. Alaska Airlines will send a code and you must enter into the sign-up flow to confirm.

Is it free?

Although SMS for MFA is complimentary, message & data rates may apply. Depending on your text plan, you may be charged by your carrier.

What if I don't want to receive any more text messages?

To stop receiving text message codes you can disable SMS as a MFA method on your Profile and Settings page. You can also stop receiving text message codes by texting "STOP" at any time. After you text "STOP" you will receive a message confirming you will not receive codes again. If you have not disabled SMS MFA in Profile and Settings, you may be unable to sign in. You can begin receiving codes again by texting "START".

What if I need help?

If you are experiencing issues with the messaging program you can reply with the keyword "HELP" for more assistance or visit our [Help Center](#).

What if I want to opt back in?

To re-enable receiving text message codes you can enable SMS as a MFA method on your Profile and Settings page.

Who are the participating carriers?

When the guest clicks on the terms and conditions link, they are sent to the MFA T&C page above.
